

beauty special

“Me with makeup — and me without — are two very different things!”
— Jennifer reveals to *In Touch*

HER BEAUTY BY THE NUMBERS

Price of her beloved Crème de La Mer moisturizer
\$1,390

How much this look costs
\$1,652

Total time
2 hours

FOUNDATION

J. Lo prefers a dewy look, so she starts with moisturizer, and Scott uses a creamy foundation: “It spreads better.”

CHEEKS

Jennifer loves Scott’s use of shading and contouring. “I do a low-rent version when he’s not around,” she tells *In Touch*.

SHIMMER

She extends the glow beyond her face with Scott’s Body Bling: “It seems to slim the whole body,” he says.

BRONZER

J. Lo tells *In Touch* that she gets her signature glow while steering clear of the sun. “Bronzer and self-tanners are so worth it!” she says.

EYES

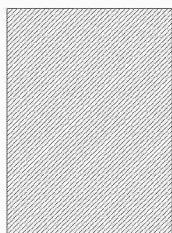

No diva demands here! Even J. Lo likes drugstore products — Scott often uses \$5 Maybelline eyeliner on the star.

LIPS

A pretty pucker is key, but Jennifer says, “Even before Scott puts a stitch of makeup on you, you already feel really beautiful!”

It takes a lot to look like J. Lo!

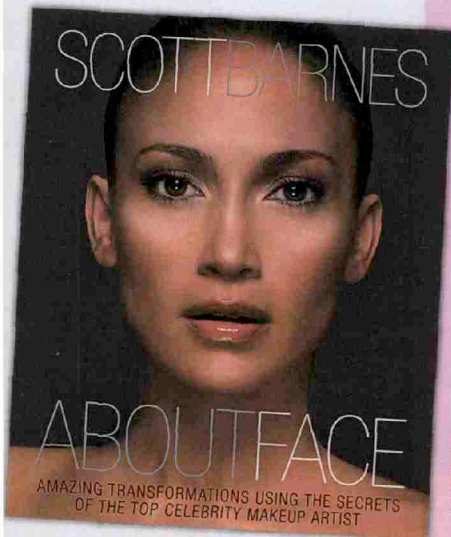

Jennifer Lopez and makeup artist Scott Barnes share her beauty secrets with *In Touch*

With Jennifer, I always try to make her look glamorous, feminine and delicate, because that look never goes out of style," **Scott Barnes**, Jennifer Lopez's makeup artist, explains to *In Touch*, adding that he usually takes two hours to complete the star's makeup transformation. "I suggest each look for her based on the event she'll be attending, and I certainly pay attention to her wardrobe and accessories, too."

Scott's expertise is invaluable to Jennifer, 40, because he introduced her to contouring — it's the secret to a flawless face for the singer and so many other stars. "Everybody has different places you want to highlight and take away from," she told *In Touch* at the launch of Scott's new book, *About Face*. In addition to working his magic with his favorite products, Jennifer says the best advice he has given her has been to get plenty of beauty rest — and stay out of the sun! "He really nailed that into my head," Jennifer explains. "We've known each other for 10 years, and have always used self-tanners and bronzers to protect my skin."
